

Effective April 10, 2023

Hello Rack Owners and Tenants;

Please pick up two new parking passes for the owners and one parking pass for tenants that are to replace your existing (old) parking pass. This is the first time in years that they are being replaced. Please throw the old ones because they will no longer be accepted as proof of Ownership or Tenant status. This is part of our long-term plan to try and alleviate our limited parking in the front of the buildings.

The next couple of months are always difficult for us all. We are in direct communication with Pop's Management to do our best to eliminate outsiders from taking our asphalt parking spaces during regular business hours. Starting this week, Pop's has hired two parking attendants (one during the day and one at night) to assist Pop's customer to park in the gravel area prior to 5 pm during this spring break.

You can help the parking attendants and our staff by placing you new pass on your dashboard and or visor where we can easily see it when parking on the asphalt parking spaces. We ask that all guest park in the gravel area. Also, during extreme congestion, during our regular business hours our employees will give their spaces to you.

We acknowledge the difficulty's that we all are encountering during these two months and just want you to know that we are trying our best with limited resources.

Effective April 10, 2023 tenants & owners who are parked in the gravel parking space with no parking pass will be towed.

Thank you for your understanding.

Wanda Skaggs
